Speed: 33, 45 (electronic speed change)
Wow & flutter: 33: +/-0,25%; 45: +/-0,23%
Speed drift: 33: +/-0,7%; 45: +/-0,6%
Signal to noise: 65dB
Effective Tonearm length/mass: 8,6" (218,5 mm) (7g)
Overhang: 22,0mm
Included accessories: 15V DC / 0,8A power supply, dust cover, 7'' single adapter
Power consumption: 4,5W
Dimensions: 420 x 112 x 330mm (WxHxD)
Weight: 3,5 kg net

E1 BT:
BT 5.0 - Class II, 2.5mW (4dBm) per 2.4GHz – 2.48 GHz

E1 Phono Preamp:
Input impedance: 47kohms/100pF
RIAA-equalisation accuracy: 20Hz-20kHz / +/- 0.5dB

E1: A turntable for everyone

The E1 from Pro-Ject Audio Systems is the first E-Line turntable, aiming to deliver a great sound experience on a limited budget, hand made in Europe. It doesn't matter if you are a beginner, returnee or experienced vinyl fan. The E1 won't disappoint you!

Our Plug & Play design with pre-adjusted tracking force and anti skating by our experienced technicians in the factory provides you the best settings for your turntable. Just lean back and enjoy your favourite records.

The new E1 is available in three different versions to fit everyone's needs. All three models are equipped with an 33/45 RPM electronic speed switch.

The **E1 Phono** adds an internal phono preamplifier to the standard version and is the perfect model for you, if you don't have a phono preamplifier in your current setup.

If you want to connect your turntable wirelessly to your BT speaker, headphones or amplifier, the **E1 BT** is your choice. It features not only a BT 5.0 transmitter, but also an integrated phono preamplifier.

Handmade in Europe

The stylish CNC-machined composite fibre plinth, available in high gloss black, high gloss white or walnut finish, is carefully manufactured to ensure there are no hollow spaces inside.

The lightweight and low friction 8,6" aluminium tonearm is optimized for the high quality Ortofon OM5e cartridge and will bring out its maximum potential.

The new ABS Polymer main platter is strengthened with purpose-designed ridges in order to create an ideal, anti-resonant platform for your vinyl.

To protect your E1 from dust, you will also find an elegant acrylic dustcover with adjustable hinges in the box.

Boasting premium materials, stylish aesthetics and a rich, lively sound, the extensive development process has ensured that there has been no compromise in the sound performance despite such an affordable price.
